in our traps today the men

were hard at work and getting the  
old men back into shape. We are now back  
on track and the old men are working hard  
again. The old men have been working hard

with the village at work.

Now that we are back from hunting  
season, some of our energy  
will go into work.

After a long walk through dense brush  
over rocky ground we  
crossed back where there is a large stream which  
comes from the south side of the Mts.

crossed a small stream and found  
a small valley with a few scattered  
trees. Many very small  
and thin ones were scattered  
about.

At last we came to a  
place of dry land.

We took advantage of the dry  
area and built a shelter  
out of dry sticks and  
other materials.
